

41. A framed display, comprising:
- (A) a background picture,
 - (B) a trimmed composite picture in which said composite picture is defined as a picture created by merging two or more pre-existing images or pictures, and
 - (C) a picture frame having a transparent plate for supporting said trimmed composite picture in front of, and spaced apart from said background picture.
42. The framed display of Claim 41 in which said picture frame also has bending means for bending said background picture into a concavo-convex curvature for imparting a three dimensional effect to said background picture.
43. The framed display of Claim 42 also comprising a bottom edge picture positioned at right angle to said background picture.
44. The framed display of Claim 42 also comprising a three dimensional art placed between said transparent plate and said background picture.
45. The framed display of Claim 41 in which said trimmed composite picture is a self trimmed composite picture.
46. The framed display of Claim 41 in which said composite picture is a computer-generated composite picture.
47. The framed display of Claim 41 in which said composite picture comprises:
- (a) a template picture, and
 - (b) a person's image merged with said template picture.
48. A picture frame for mounting and displaying one or more of the following contents: (a) a background picture, (b) a floating picture, (c) a bottom edge picture, (d) a 3D art, comprising:
- (A) holding means for removably holding said background picture in said picture frame,
 - (B) bending means for bending said background picture into a concavo-convex curvature for imparting a three dimensional effect to said background picture,
 - (C) a front opening,
 - (D) a top opening, and
 - (E) a frame glass member for covering said front opening and said top opening.
49. The picture frame of Claim 48 in which said bending means is a curved back wall.
50. The picture frame of Claim 48 in which said frame glass member has a flexible glass sheet for holding and displaying said floating picture.
51. The picture frame of Claim 48 also comprising a bottom plate positioned at right angle to said background picture for supporting and displaying said bottom edge picture.
